

Introducing: Dr. Jared Allomong, DC, QN

Dr. Jared Allomong has been a practicing integrative functional medicine practitioner in Longmont, Colorado since 2007.

After graduating cum laude from Parker College of Chiropractic and completing certification from the International College of Applied Kinesiology he moved to Colorado to open a chiropractic practice specializing in Applied Kinesiology.

Over the years he has studied and integrated many kinesiology techniques into his practice focusing primarily on Neuro-Emotional Technique, Quantum Neurology, Lebowitz Technique, and Wholistic Methylation.

In 2008, he began studying Functional Medicine and Functional Neurology with Dr. Datis Kharrazian and has since integrated kinesiology with functional medicine and put it into clinical practice.

By 2012, his interest had peaked into the world of methylation and nutritional genetic support. He has studied the work of Dr. Amy Yasko, Dr. Ben Lynch, and Dr. J Dunn.

Dr. Allomong has a strong desire for education of the community and has done over 80 public lectures and events throughout his career. Integrating chiropractic, kinesiology, functional medicine and epigenetics into an effective practice is his passion.

Functional Methylation

Implementing Methylation into Every Practice!

presented by:

Dr. Jared Allomong, DC, QN

**OCTOBER, 4TH & 5TH,
2025
WICHITA, KANSAS**

12 CE hours applied for KS & MO

Join us as Dr. Allomong...

Covers a basic understanding of Methylation before exploring advanced concepts.

- Incorporate immediately into practice
- Tweaking environmental factors to manifest ideal outcomes for DNA profiles
- Basic and Advanced teaching tools to master Methylation

Dr. Allomong puts the “practical” into Functional Methylation. Log in to www.nutriwest.com to see Dr. Jared’s archived webinars and get introduced to the techniques that get your patients well!

This course can truly transform your style of practice and increase your clinical outcomes!

As you know, methylation pathways are important in detoxification of chemicals, pesticides and heavy metals. It is also important in the production and removal of adrenal steroid hormones (chronic spinal inflammation), in the absorption and use of critical nutrients such as B12, folic acid and Vitamin D, the repair of DNA and in energy production and so much more!

Pre-order your Methylation Test Kit today and stay ahead!

Then bring your Test Kit to Dr. Allomong’s seminar for full benefits of hands on practice!

Contact Nutri-West Kansas to order test kit. Please allow 1-2 weeks for delivery!

A LOOK INTO THE PROGRAM:

- Introduction into Methylation-Connection to the Neuro-Muscular System
- How Methylation relates to chiropractic. Direct neuro-muscular/methylation cross connections
- Description of visual Functional Methylation MAP and how each piece is related to biochemistry
- In-depth teaching on methylation cycle physiology
- Using Functional Methylation questionnaires for rapid understanding of patient patterns
- Can be integrated into 15-30 minute office visits
- Discovering inborn programming that drives diversity and how to optimize it
- Understanding why patients don’t always fit into neat protocols

Problems with Methylation affect 40%-50% of your patient population.

Learn how to merge laboratory testing, genetic analysis and functional muscle testing to increase your clinical chiropractic outcomes!

DATE, TIME & LOCATION:

SATURDAY, OCTOBER 4TH

9:00AM-6:00PM (Registration at 8:30AM)

SUNDAY, OCTOBER 5TH

8:00AM-12:00PM (Registration at 7:30AM)

Drury Plaza Hotel Broadview

400 W Douglas St,

Wichita, KS 67202

316-262-5000
