

A LIVE, UNIQUE, HANDS-ON EVENT THAT IS ALL ABOUT ADJUSTING!

Saturday, October 11, 2025

8 CEs Colorado

Technique, technique, and more technique - TMJ, cranial, postural alignment, extremities, upper cervical... you name it! The combination of this team's ability and expertise will impress and resonate with chiropractors. Join us in an informal learning setting with no slides – simple teaching of technique and revelations of the procedures that have made these doctors so successful in their practices. Set inside Omni Chiropractic, the office of Dr. Roger Smith. When doctors gathered last year in Dr. Strempel's office, they raved about the up close and personal experience. This is your chance to experience what impressed them so much!

William Strempel, DC

William Strempel, DC and Roger Smith, DC come together to advance your knowledge of technique! Come join us for a spectacular interactive, hands-on weekend of techniques that will amaze you and increase your ability to take patients' wellness to the next level! These doctors treat many football players, including the Denver Broncos, who need to get back on their feet fast! Get adjusted at the seminar and discover these techniques!

Roger Smith, DC

William Strempel, DC brings his expertise in many varied areas and watching his remarkable work will spark an interest in his techniques. He specializes in neurological disorganization and also masters adjusting the feet. He is sometimes referred to as "the bunion doctor", with a unique ability to make them disappear. This is a chance to glean tried and true pearls and add to your adjusting repertoire!

Roger Smith, DC has a passion to correct imbalances with GPA (Gravitational Postural Analysis) – a method of whole-body alignment from head to toe.
