SEPTEMBER 25-27, 2026

WHERE:
ORCHARD CREEK LODGE
965 ORCHARD CREEK LN LINCOLN, CA 95648

TIME:
Friday & Saturday: 9:00 AM to 6:00 PM
Sunday: 8:00 AM to 12:00 PM

Course Summary

This course provides a comprehensive treatment protocol based on Functional Neurology, Functional Medicine, and Applied Kinesiology Concepts.

You Will Learn

Class attendees will learn a comprehensive clinically effective and efficient clinical protocol based on Applied Kinesiology Diagnostic muscle testing, functional neurology principles, functional medicine, and time-tested Applied Kinesiology techniques. Participants will learn 24 dysfunctional patterns and correction procedures. Participants will also learn updated techniques on treating several types of visceral fat dysfunctions, among application of voluntary blinking to ferret out hidden problems. Amongst many other techniques participants will learn an efficient system utilizing flexor-extensor stretching rules to prioritize correction techniques such as manipulation, acupuncture, Chapman's reflexes, and cranial faults.

Prerequisite Requirement

To register, you must have completed a 100-hour course or possess equivalent knowledge.

Important Note-

- A comprehensive treatment manual (200+ pages) is included with the course.
- Previous attendees will be asked to print and bring with them the updated manual provided.
- Course Amenities: Lunch provided Friday & Saturday • Dinner provided Saturday evening.
